

Dear Chairman Powell,

I urge you to open the issue on Docket-02-277 on Broadcast Ownership before Congress. Though I am certain you have many issues

before you, the consolidation of media ownership of public airwaves, Internet, and print media are far too important to bypass

Congressional comment and review. The FCC regulates the media for the public good and this issue has huge long term commercial and political consequences.

I appreciate your accepting my comments by e-mail.

Sincerely,

Steve Schenck
